SUMMARY

I'm frontend developer with hands-on experience building, maintaining, and managing responsive websites and web applications for clients. Strong foundation in HTML, CSS, JavaScript, and React, with experience turning designs into functional, user-friendly interfaces. Comfortable working independently or with clients on freelance and internship projects, with a strong interest in learning and growing in the tech field.

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- Typescript
- React.js
- Python
- SQL
- Responsive website development
- Website design & UI implementation
- Debugging and problem-solving
